About Us

We are a team of eager and enthusiastic professional people with a combined experience of over 70 years of lighting experience. The passion that we put into everything is what characterises us.

Light Alliance Projects and its partners share an entrepreneurial spirit, and work with forward-thinking people to develop unique solutions, create synergies and promote our solutions within the ever-changing lighting market. We bring together local knowledge and expertise, committed professionals, extensive networks and a dedication to developing quality lighting solutions.

We follow the digital environment closely so that we can keep track of new trends and deliver the excellent service that we strive for. We are passionate about what we do, and this dedication can be seen in our employees and our partners.

Design

We have an in-house professional team which works on various lighting designs which affords you, our partner, the opportunity to understand the lighting layouts before installation. This eradicates the chances of poor lighting designs whilst designing to the most cost and energy efficient solutions possible and yet achieving the correct lux levels and optimizing productivity in the workplace.

Our Vision

To be regarded as one of the leading energy efficient lighting suppliers in Africa through continued co-operation with our partners, **you**. Our commitment to the lighting industry must be measured by our service, performance and success of each project (big or small), whilst offering high-quality cost-efficient luminaires.

Mission Statement

- To be the preferred value-added LED lighting provider, known for its high-quality innovative lighting solutions
- To put others needs before our own
- To be accountable to our clients and business partners
- Delivering the most cost and energy efficient lighting solutions with world class products and service

Directors: CG Lane, JD Roberts
